

# THE ORC DIFFERENCE

## AT ORC WE STAND ON 4 COACHING PILLARS:

### Game Based

As proven all over the world the game based approach is a faster more effective way of learning the game. All ORC camp coaches are trained in using this methodology.

### Learner Centered

At ORC we put the player first. Our goal is to help the player improve and we know we can only do this if we are good listeners and get to know our players needs.

### Open Skill

Studies show that training in an open skill environment ensures players can transfer their skills faster from the practice court to the match court.

### Global

Most people understand that tennis is technical, tactical, physical, and physiological. At ORC we do not just know it, we do it; players who train with us develop all facets of their game in a systematic, measurable way.

During the camp we will be developing players in all areas of tennis including **technical**, **tactical**, **physical**, and **psychological**. Each day, players will do technical/ tactical training on court as well as learn to do tactical analysis and match charting using video. Players will also have tennis specific physical training each day along with match play to put into practice the skills of the day. Each day will also include a half hour lecture on different areas of competitive tennis from nutrition, to match preparation etc.
